

Knowledge is a **tool** for **competitive advantage**

Get your training right - through a Work Based Learning partnership with AIT

AIT can deliver in your workplace

- Learning that is specifically tailored to your specific requirements
- Knowledge that is immediately useful in the workplace
- Knowledge that allows your organisation to grow to its full potential

AIT provides opportunities for industry to tailor learning to specific workplace needs

Depending on the learning programme your staff may gain valuable third level academic credits and qualifications

Tailored to your workplace

AIT will collaborate with **employers** to **design,** **develop** and **deliver learning** in your **workplace**

- AIT operates a process for Recognising Prior Learning (RPL), designed to facilitate learners' return to education. RPL recognises "on the job" learning through previous training (certified or non certified), experience or a variety of sources.
- **Learners who can demonstrate prior learning may be exempted parts of a programme.**
